- 1. The member District of GMA met on the 22nd of April at the POSGCD offices in Milano, TX. The meeting included presentation from Dr. Robert Mace regarding his latest works on groundwater sustainability. There were further discussions on data sharing between districts either through the creation of a shared database or through expanded use of existing TWDB resources. A follow up meeting was scheduled, posted and conducted on the 6th of May for the purpose of approving responses to questions raised by TWDB during the review of the explanatory report.
- 2. At the request of members of the board the assistant General Manager will deliver a brief update on his activities.
- 3. The District has received communications from TCEQ that indicate that the TWDB is taking longer to review and approve updates to District management plans than it has in the past. TCEQ recommended submitting updates to the management plan earlier than in previous rounds. Follow up communication with TWDB did not confirm the slower processing but did include some 'tips' to improve review and processing time. Based on these conversations it remains my recommendation that we pursue making the mandated changes to the management plan this year while working on a more extensive set of revisions that can be submitted after the update is approved.
- 4. This is placeholder item on the GM report for any further discussion of activities at the committee level.
- 5. Pending Permits:
 - i. None
- 6. Upcoming meetings
 - i. GMA 12, June 24th, 10 a.m. POSGCD Offices Milano, TX and online
 - ii. Region K, July 27th, 10 a.m. LCRA Dalchau Center Austin, TX
