

**LOST PINES GROUNDWATER CONSERVATION DISTRICT  
OPERATING PERMIT**

**District Well Number:** 58-55-5-0032

**Permit Approved:** October 12, 2021

**Permittee:**

Lower Colorado River Authority (LCRA)  
P.O. Box 220  
Austin, Texas 78767-0220

**Location of Well:** Approximately eight (8) miles northeast of the City of Bastrop in Bastrop County (30.202285/-97.207107), Well No. 1

**Permittee is authorized to operate Well No. 58-55-5-0032 within the Lost Pines Groundwater Conservation District under the following conditions:**

**Authorized annual withdrawal:** 8,000 acre-feet per year in aggregate.

**Maximum rate of withdrawal:** 6,000 gallons per minute in aggregate.

**Aquifer unit:** Simsboro

**Type of water use:** All beneficial uses authorized by Texas Water Code § 36.001(9)(A)-(B).

**Place of water use:** LCRA Water Service Area in Bastrop, Lee, and Travis Counties

**Standard Permit Provisions:**

This Operating Permit is granted subject to the District Rules, the orders of the Board, the District Management Plan, and Chapter 36 of the Texas Water Code. In addition to any well-specific permit provisions and special conditions included in this Operating Permit, this Operating Permit includes the following provisions:

(1) This permit is granted in accordance with District Rules, and acceptance of this permit constitutes an acknowledgement and agreement that Permittee will comply with the terms, conditions, and limitations set forth in this permit, the District rules, the orders of the Board, and the District Management Plan.

(2) Water withdrawn under the permit must be put to beneficial use at all times, and operation of the permitted well in a wasteful manner is prohibited.

(3) Water produced from the well must be measured using a water measuring device or method approved by the District that is within plus or minus 10% of accuracy.

(4) The well site must be accessible to District representatives for inspection, and permittee agrees to cooperate fully in any reasonable inspection of the well and well site by District representatives.

- (5) Permittee will use reasonable diligence to protect groundwater quality.
- (6) Permittee will follow well plugging guidelines at the time of well closure.

(7) The application pursuant to which this permit has been issued is incorporated in this permit by reference, and this permit is granted on the basis of and contingent upon the accuracy of the information provided in that application. A finding that false or inaccurate information has been provided is grounds for revocation of the permit.

(8) Violation of the permit's terms, conditions, requirements, or special provisions, including pumping amounts in excess of authorized withdrawals, may subject the permittee to enforcement action under District Rules.

(9) Whenever the special conditions in the permit are inconsistent with other provisions of the permit or the District Rules, the special condition will prevail.

**Special Permit Conditions:**

This Operating Permit is granted subject to the following special conditions:

(1) The authorized annual withdrawal amount and the authorized maximum rate of withdrawal under this permit for this Well No. 58-55-5-0032 (Well No. 1) are hereby aggregated with the authorized annual withdrawal amount and the authorized maximum rate of withdrawal for the following designated wells: Well No. 58-55-5-0033 (Well No. 2); Well No. 58-55-4-0016 (Well No. 3); Well No. 58-55-4-0017 (Well No. 4); Well No. 58-55-4-0018 (Well No. 5); Well No. 5855-4-0019 (Well No. 6); Well No. 58-55-4-0020 (Well No. 7); and Well No. 58-55-4-0021 (Well No. 8). Well No. 58-55-5-0032 and the designated wells are collectively referred to as the "Aggregated Wells."

(2) Before providing water withdrawn from the Aggregated Wells to any End User, Permittee shall submit to the District: (a) each End User's water conservation plan and drought contingency plan, if the Texas Water Code or Texas Commission on Environmental Quality rules require the End User to prepare a water conservation plan and drought contingency plan; or (b) if the Texas Water Code or Texas Commission on Environmental Quality rules do not require the End User to prepare a water conservation plan and drought contingency plan, a certification from the End User that the End User agrees to avoid waste and achieve water conservation. Any End User water conservation plans and drought contingency plans that are submitted must comply with the relevant provisions of the Texas Water Code and rules of the Texas Commission on Environmental Quality or successor agency.

(3) This Permit is not subject to the District's rules on time limits for the completion of a permitted well or the operation of a permitted well.

(4) This permit is issued subject to any future production limits adopted by the District under the District Rules.

(5) Production Fees charged to Permittee under this Permit shall be based upon amounts authorized to be produced under this Permit at the time that Production Fees are due.

(6) Permittee is subject to the District Rules that require that all wells be completed within 100 feet of the location identified on the application pursuant to which this permit has

been issued; provided that the well location complies with the applicable well spacing requirements under the District Rule 8.2.B.

(7) Prior to operation of any new well authorized by this permit, Permittee shall, for each new well, complete a 36-hour pump test that complies with District Rule 5.1.B(5) and report the results of the test to the District.

(a) During the 36-hour pump test for each well, Permittee shall produce groundwater from the well at an instantaneous rate of withdrawal of at least 2,250 gallons per minute and not to exceed the aggregated maximum rate of withdrawal authorized by this permit.

(b) Permittee shall provide the District with not less than 30 days' prior notice of the earliest date the 36-hour pump test will begin and confirm the scheduled date by phone or email with the General Manager at least 3 days' prior to the test.

(c) Permittee shall pay all costs of the 36-hour pump test.

(d) Within ninety (90) days of the completion of the 36-hour pump test, Permittee shall provide the General Manager with the data gathered at all of the Aggregated Wells tested during the pump test.

(e) The General Manager will review the results of the 36-hour pump test. If the General Manager determines that the transmissivity of the aquifer (measured in ft<sup>2</sup>/day) at the well is lower than the values included in the model grid cell in which the well is located, then the General Manager may reduce the authorized maximum rate of withdrawal under this permit. The General Manager will mail notice to Permittee no later than the 90th day after receipt of the information described in subsection (d) of his decision whether to reduce the maximum rate of withdrawal.

(f) Permittee may appeal the General Manager's decision under subsection (e) to the Board pursuant to the procedures set out District Rule 15.6.B. through 15.6.E.

(8) At least thirty (30) days prior to drilling the well, Permittee shall provide the General Manager with the design specifications for the well that are required for registration of a well under the District rules, including the total depth of the well, the depth of the screened interval, the pump size, and any other well information required by the District's then-current well registration form.

**Permit Term:**

This Operating Permit shall be effective for a period of five (5) years from the date the permit is approved, unless terminated, amended, renewed, or revoked as provided in the District Rules.

Acceptance of this permit by the Permittee constitutes acknowledgment and agreement to comply with all of the terms, provisions, conditions, and restrictions stated in the permit and the rules of the Lost Pines Groundwater Conservation District.
