TEXAS WELL OWNER NETWORK

RESOURCES HELP LANDOWNERS PROTECT GROUNDWATER

Sample Drop Off
Monday, February 27, 2023
8:30—10:00 a.m.
Educational Meeting
Tuesday, February 28, 2023
8:00—12:00 p.m.

Bastrop County
Annex Building

804 Pecan Street, Bastrop

TEXAS WELL OWNER NETWORK PROGRAM

The Texas Well Owner Network (TWON) program is a free, educational training for Texas residents who depend on household wells for their water needs. TWON is for private well owners who want to become familiar with groundwater resources, septic system maintenance, well maintenance, water quality and water treatment. Private well owners are independently responsible for monitoring the quality of their wells. Essentially, they are the operators of their own water system and are responsible for ensuring that their water is safe.

BRING YOUR WELL WATER SAMPLES!

Well owners should bring water samples the day prior to the event (Monday, February 27) to be screened for nitrate–nitrogen, total dissolved solids (TDS) and *E. coli* bacteria. Pick up approved sample containers with instructions at the Bastrop County AgriLife Extension office, 901 Pecan Street in Bastrop. Samples should be turned in at the same location that testing materials were picked up.

Samples are due on Monday, February 27 by 10:00 a.m.. No cost for samples.

Pre-register for the workshop by calling Joel Pigg at 979-845-1461 or email at j-pigg@tamu.edu
