Our Purpose

The purpose of the Lost Pines Groundwater Conservation District, as per Texas Water Code 36, Section 36.0015 is to provide for the preservation, protection, recharging, and prevention of waste of groundwater and of groundwater reservoirs or their subdivisions and to control subsidence caused by the withdrawal of water from those reservoirs. It has an obligation under Texas Water Code section 36.1071 to develop a groundwater management plan providing management goals to help the district meet that purpose. Under Texas Water Code section 36.101, the district also has rulemaking authority to adopt and enforce rules to carry out its purpose. Any questions or concerns regarding this matter can be directed to the office of the Lost Pines Groundwater Conservation District located at 908 TX-230 Loop, Smithville, Tx. 78957. 512-360-5088

Announcements:

As of December 22, 2022, The Lost Pines Groundwater Conservation District has assigned a new hydrogeology services contract to LRE Water, LLC.

LRE Water, LLC services groundwater resource development and management throughout the western United States.

Working closely with water rights/water resources planning and management teams, environmental permitting and regulatory compliance specialists, and water information technology experts, LRE, LLC., provides innovative groundwater solutions to develop resilient and reliable water supplies.

The Lost Pines Groundwater Conservation District will conduct a workshop session focused on proposed changes to the District's rules. The workshop allows for public feedback and comments on the proposed rule changes without the need for Board discussion, or possible Board approval. No action will be taken on the proposed rules

at either the workshop or the subsequent regular board meeting. The proposed rule changes can be found at:
