

# LOST PINES GROUNDWATER CONSERVATION DISTRICT

## **FOR IMMEDIATE RELEASE**

### **TEXAS WELL OWNERS NETWORK IN BASTROP & LEE COUNTY** *Free Well Water Testing & Education Workshop*

[GIDDINGS, TEXAS | January 6, 2025] – The Lost Pines Groundwater Conservation District (LPGCD), in collaboration with Lee County AgriLife Extension, Bastrop County AgriLife Extension, and the Middle Yegua Creek Watershed Protection Working Group, will host a Texas Well Owners Network (TWON) Water Testing & Workshop event February 2 & 3 to help private well owners better understand and protect their well water.

On Monday, February 2, 2026, residents may drop off water samples between 8:30 AM and 11:00 AM at either Bastrop County AgriLife Extension or Lee County AgriLife Extension. Samples will be analyzed for common water quality indicators, providing participants with valuable insight into the condition of their well water. For more information on how to collect a water sample please email [cmarks@lostpineswater.org](mailto:cmarks@lostpineswater.org).

Educational workshops will be held on Tuesday, February 3, 2026, with two opportunities to attend:

- 10:00 AM to 11:30 AM at Bastrop County AgriLife Extension
- 5:30 PM to 7:30 PM at Lee County AgriLife Extension

During the workshops, experts will explain how to interpret water test results, discuss common groundwater concerns in Bastrop and Lee Counties, and share best practices for maintaining private wells. The Lee County workshop will also cover information on maintaining septic systems.

Event locations include:

- Lee County AgriLife Extension, 310 S. Grimes St., Giddings
- Bastrop County AgriLife Extension, 15 American Legion Dr., Suite 109, Bastrop

### **ABOUT THE LOST PINES GROUNDWATER CONSERVATION DISTRICT**

The Lost Pines Groundwater Conservation District is dedicated to the protection and conservation of groundwater resources in Bastrop and Lee Counties. Through educational programs, community outreach, and strategic resource management, the District strives to ensure sustainable water supplies for current and future generations.
