

**LOST PINES GROUNDWATER
CONSERVATION DISTRICT
OPERATING PERMIT**

Lost Pines Well Number: 58 53 9 0063

Permit Approved: 07/10/2023

Owner: Rambo Materials, LLC
98 San Jacinto Blvd FSR #1107
Austin, TX 78701

Location of Well: 267 Wilbarger Bend Rd.
Bastrop, TX 78602

Has obtained a permit from Lost Pines Groundwater Conservation District to operate a water well within the district under the following conditions:

Type of use: Mining

Authorized annual withdrawal: 50 acre-feet/yr.

Maximum rate of withdrawal 150 gal/min

Sub-Aquifer Name Alluvium

Sump

Type of Well: Mining

☐ *Approved to aggregate with other wells for a withdraw total of* 50 acre-feet/yr.

The permit is granted subject to the rules of the District, orders of the Board, and the laws of the State of Texas. The permit may be modified at any time by the Board in accordance with the district's management plan. In addition to any special provisions or other requirements incorporated into the permit, the permit contains the following permit provisions:

1. The operating permit is granted in accordance with the provisions of the rules of the district and acceptance of the permit constitutes an acknowledgement and agreement that the permittee accepts the terms and conditions of the permit and agreement to comply with the rules and management plan of the district.
2. The permit confers only the right to operate the well under the conditions described in the permit and the rules of the district, and the terms may be amended pursuant to the provisions of the rules of the district. Within 10 days after the date of sale of the well, the operating permit holder must notify the district in writing of the name and address of the new owner. Any person who becomes the owner of a currently permitted well must within 20 calendar days from the date of change in ownership, file an application for a permit amendment to effect a transfer of the permit.

3. The operation of the well for the authorized withdrawal must be conducted in a non-wasteful manner.
4. Withdrawals from the well must be measured by a water meter or estimated by the owner or operator using a water measuring device or method that is within plus or minus 10% of accuracy. Measured or estimated water use shall be reported to the district monthly and the applicable fee paid. Permittees shall keep accurate records of the groundwater withdrawn and the purposes of the withdrawal. Such records shall be available for inspection by district representatives.
5. The well site must be accessible to district representatives for inspection, and the permittee agrees to cooperate fully in any reasonable inspection of the well and well site.
6. The application for which this operating permit has been issued is incorporated by reference in this permit, and the operation permit is granted on the basis of and contingent upon the accuracy of the information provided in that application. A finding that false or inaccurate information has been provided is grounds for immediate revocation of the operating permit. Operating permits are subject to the imposition of additional provisions in accordance with the district's approved and certified management plan.
7. The Maximum authorized withdrawal is limited to the amount stated in the permit on an annualized basis and the instantaneous rate of withdrawal can be no more than 1.25 times the amount authorized on an annual basis, except when groundwater production from wells is aggregated in accordance with district rules, unless otherwise authorized by this permit.
8. Violation of this permit's terms, conditions, requirements, or special provisions, including pumping amounts in excess of authorized withdrawal, is subject to revocation and/or punishable by civil penalties as provided by district rules.
9. Wherever special provisions in this permit are inconsistent with other provisions or rules of the district, the special provisions shall prevail.

Unless specified otherwise by the Board, except for permits used for agricultural purposes, all operating permits are effective for a five (5) year period from the date a permit is granted, unless changed or revoked, or a different period of time is required by the Texas Water Code. Operating permits for wells used solely for agricultural purposes are effective until changed or revoked.

The permit has the following special conditions:

Acceptance of the permit by the owner constitutes acknowledgment and agreement to comply with all of the terms, provisions, conditions, and restrictions stated in the permit and the rules of the Lost Pines Groundwater Conservation District.

The Lost Pines Groundwater Conservation District Board of Directors reserves the right to amend the permit volume to ensure that the Desired Future Conditions ratified by GMA 12 are not compromised by the operation of this well.
